SUMMARY

- Recent graduate with a strong foundation & experience across multiple platforms, languages and tools.
- Educational focus on .Net & java technologies, Object-Oriented Programming, software testing, database administration, full stack web development and project management.
- Self-starter with strong communicational skills and the ability to learn quickly in a team or solo environment.

EDUCATION

BSc (Honours) Computer Science - Information Systems at Middlesex University (2018 to 2019)
Web, Mobile & Cloud Computing, IS Planning & Management, Interaction Design & User Experience, Information Systems Development

Awarded: Upper Second Class Honours

KEY ACHIEVEMENTS:

- Developed competencies in software development, design for end users, and design for multiple platforms like web, mobile and cloud computing.
- Identified and managed resources for all stages of projects – analysis, planning, estimation, execution and improvement.
- Emphasized the use of user-research methods, evolutionary prototyping and formative evaluation for end-user system developments.

The ACCP Program at Aptech Computer Education (2016 to 2018)

Software Engineering, Programming, Web Development, Project Management, Enterprise Application Development.

Upon completion, progressed onto Level 6 (Year 3) of BSc (hons) Information Systems

KEY ACHIEVEMENTS:

- Created a product website that would compare similar products using pure JavaScript.
- Made multiple Java applications with GUI for different organizational needs (HR Management, Attendance Management, Hotel Management, etc.) & made a quiz game using Java.
- Made e-commerce websites with user authentications using PHP & MySQL.
- Built an Instagram clone, e-commerce & e-administration websites using JSP & Servlets (Java).

International Diploma in ICT at Ed-hat International (2013 to 2015)

Theoretical Aspects & Applications of ICT, Basic Programming Theory, Visual Programming, Web Development, Graphics and Multimedia.

GPA: 3.3 / 4.0

KEY ACHIEVEMENTS:

- Built console applications that imitate ATM transactions and other console based apps in C.
- Converted console apps built in C into GUI applications using C++.
- Created macros in Microsoft Office applications using VBA that automate many manual tasks.

EXPERIENCE

Administrator at ABV Rock Group Co. Limited (2015 to date)

Setup and deployed secure shared working space for legal department staffs.
Compiled and updated assets, policies, procedures and solutions documentations.
Developing & maintaining a comprehensive and organized file storage.
Monitoring system performance and troubleshooting issues.

IT Trainee at Stone-N-String (Pvt) Ltd. (2012 to 2015)

Aided in the development of company website (www.stone-n-string.com) with the development team using PHP (Laravel Framework), MySQL, JQuery, HTML & CSS.
Pioneered the move into web environment for Vr-One projects by developing www.vr-one.org in CMS (Weebly).
Built www.chewycinnamon.com & www.get4p.com as part of Stone-N-String projects using the same technology as the company website.
Designed digital advertisements, business cards, banners and posters using Adobe Illustrator, Corel Draw and Adobe Photoshop.

SKILLS

Web Design & Development

HTML, CSS, JavaScript, JQuery, Bootstrap
LAMP Stack - Linux, Apache, MySQL, PHP / Python
MERN Stack - MongoDB, Express, React, NodeJs

Content Management Systems

WordPress, Weebly, Joomla, Wix

Software Engineering & Development

Java, C, C++, .Net Framework, Python

Operating Systems

Windows Systems, Linux (RHEL Based: Redhat, Centos & Fedora / Debian Based: Ubuntu, Kali)

Design Tools

Adobe Photoshop, Adobe Illustrator, Adobe XD, Adobe InDesign, Corel Draw

Languages

Fluent in English (IELTS Academic Test Band Score: 7.5 / CEFR Level: C1)
Proficient in Tamil and Sinhala

Miscellaneous Works

- Completed multiple freelance web design / development and graphic designing projects.
- Built my online resume from scratch, a responsive website template using bootstrap.
